drinks liquors will be discharged.

## Some Fine Cattle.

A special train consisting of eleven cars with 183 head of fine export cattle left Richmond Monday for England. The bunch averaged 1,449 pounds and cost \$14,274.

A commercial club has organized at Beattyville.

## DEVELOPMENT.

The Key Note of a Convention to Be Held in Louisville, October 10, 11 and 12.

In these days of money-making one hears a great deal about the possibilities of Kentucky—about her future, about the development of her natural resources, etc. It is only necessary to turn to the records of the Secretary of State, in which articles of incorporation are filed, or to visit the County Clerk's offices and inspect the numerous transfers of property being made to be convinced that all of this is not "mere talk."

To this fact is due the change in the name of the biennial convention held in Louisville. Up to this year these conventions were called "State Commercial Conventions." In 1905 it has been decided also to give the meeting the name, "State Development Convention."

The men who are actively behind this Development Convention movement have been at work for more than two months completing details. They have broadened the plan and scope of the convention to fit the name, and the delegates who attend will have their eyes opened to the possibilities of every section of Kentucky in a way that can but lead to great results.

Some of the topics to be discussed in the

United States on subjects close to the hearts of all enterprising citizens have accepted places on the programme. Among the subjects assigned to different speakers are the following:

Kentucky's Present Opportunities.  
Capital—How to attract to Kentucky.  
Immigration to the Right Class—How to Attract to our State.  
Railway Extension in Kentucky  
Co-operation with Agricultural Interests.  
Development of Agricultural interests in general.  
Development of oil interests.  
Development of timber interests.  
Taxation for State and county.  
River improvement—Ohio and Kentucky tributaries.  
Interurban Electric extension as a developer of the State.

Any person riding over the county adjacent to Clay City can behold as fine corn growing as in any county in the State; they can find pastures grazing as many head of cattle per acre as in any county, and they can find some of the finest fruit and vegetable land anywhere. With all of these favorable conditions, we are yet sadly in need of one great important improvement, and that is good roads over which to haul our products to market. Then to enhance the value of our farming lands we must improve our roads. Let everybody interested go to work in earnest in the proper direction and the good roads will follow.

Lewis Lyle and John W. McKinney sold several head of cattle at Winchester Monday at fair prices.

We have had some cool nights this week but no frost yet.

## Death of W. A. Hoskin.

Mr. W. A. Hoskin, who has been in very feeble health for some time, passed away Friday night at about nine o'clock at his home near this city. Funeral services were conducted at the residence Sunday morning by Rev. R. A. Irvin, after which the remains were interred in the family burial ground.

Deceased was sixty-eight years old and was an exemplary christian gentleman, and had lived such a life for over fifty years. He was twice married, first to Miss Emma Barnett, a sister to C. W. Barnett, of this city, and then to Miss Fletcher, sister to Squire T. J. Fletcher, also of this city who now survive him.

In all he was the father of eight children, three sons and two daughters by his first wife and two sons and a daughter by his last wife. Two of the three first sons, Riley and Post, are dead and Minor, the other son by his first wife, has not been heard of for eight years, and is also expected to be dead. Mesdames Grant Elkin, of Heidelberg and S. M. Carrier, of Casey county, are the surviving first daughters. One of the sons by his last wife died some time since while his son, Herman, and daughter, Miss Carrie survive.

## The Most Orderly Town.

Clay City is decidedly the most civil and orderly town in Eastern Kentucky. Not long since while driving out on an important pike from one of our neighboring bluegrass cities we noticed that the advertising signs tacked up by business firms in the city, had been made a target for pistol practice, many of them being totally destroyed by the pistol toppers. Such is not the case about our town. We notice signs near Clay City that to our knowledge have been nailed up six years, that are yet free from mutilation.

## Large Wholesale Business.

For several years the wholesale houses of Louisville have been issuing free transportation to merchants coming to their city to lay in their goods. Last week alone these merchants paid \$10,000.00 for transportation. The average cost of each ticket supplied is \$10.00; so in exhausting the \$10,000.00 there must have been 1,000 out-of-town merchants buying goods in Louisville last week. Cincinnati can never hope to reach this mark under any conditions whatever. She is a slow number compared to progressive Louisville.

The corn and alfalfa special touring the State this week has been well attended and it is hoped it will be of much benefit to the farmers.

## Stray Calf.

Bluish black steer calf, about one year old and weight about 400 pounds, came to my place, 1 1/2 mile west of Clay City, about August 15. Owner can have same by paying all charges. JOHN A. NEAL.

## For Sale.

Surveying instruments at low price as the owner has no use for them. For particulars call at this office.

## Only Torpedoes.

We had just written and set an article which appears in this issue on the orderly and civil condition of things in this city Tuesday afternoon, when we heard the report in town of what sounded to us like the repeated firing of a shot gun. We were in the act of changing our mind about the article just put up and take it from the form, but we learned that the reports heard were the firing of torpedoes on the railroad.

## DIED.

I. W. M. Baker, the eleven-year-old son of Wm. and Ellen Baker, died at their home near Virden, Wednesday, September 20th., of asthma. Funeral service by Elder Albert Easter and burial at Powell's Valley the 21st.

A number of railroads in the State have been indicted at Frankfort for failure to report fatal accidents. The L. & E. is not in the list.

Representative-to-be Albert Easter is in Estill county interviewing the boys.

### Our Voting System.

Up until 1849 Kentucky had "three days" elections and only one voting place in each county. One could vote on any of the three days, and votes were cast viva voce and recorded in a book accordingly. Everybody went to the courthouse to vote, and it was a jubilee week. Whiskey in those days was not taxed and the best sold for about \$4 a barrel. Frequently a candidate would buy a barrel, roll it up in front of the courthouse, knock in the head, tie a lot of tin cups to it and invite the voters to help themselves. In 1849 a new constitution was framed and adopted, which provided for dividing the counties into precincts for voting, but the viva voce method was retained. Later, when the population became more dense, there was much complaint about crowding the polls on election days, and it was no uncommon thing, especially in cities and towns, to see the entrance to the

voting place crowded so deep, thus deterring many timid people from voting. This crowding and pushing naturally led to fighting, and election rows became so frequent that some change in the law became a necessity. When the constitution of 1891, with its provision for secret ballot, was adopted, the succeeding Legislature went a step further and provided that no one but those actually in the act of voting should remain nearer than 50 feet to the polls. This law had a most beneficial effect in reducing election fights, and many attributed it to the secret ballot rather than to the "fifty-foot" law. The constitution which provided for the secret method of voting was adopted in August, 1891, by the people of Kentucky, who voted viva voce for and against it, and at that election John Young Brown, Democrat, was elected Governor. That was the last August election ever held in Kentucky and the last election held under the viva voce plan. Brown was elected by 28 000 plurality over A. T. Wood, Republican. The following year witnessed the first voting by secret ballot in Kentucky, and Cleveland carried the State for President by a plurality of 40 000 over Harrison. After a trial of 14 years there is much dissatisfaction in Kentucky over the practical working of the secret ballot plan, and whether the people of Kentucky will continue to vote by secret ballot or will return to the viva voce method is the question to be determined by the voters themselves at the coming November election.—Ex.

### Corrupting Funds.

President John A. McCall, of the New York Life Insurance

Company when questioned by the Insurance Inspectors of New York was compelled to state that his company in 1904 contributed large sums of money to the Republican campaign fund, and that they had also done likewise in 1896 and 1900. Numerous other corporations have all along been doing this, which shows that the corporations all must stand in the g. o. p. The Democrats have been preaching for years that the Republican party drew its strength from the support of the wealthy corporations, and that it was therefore their servant.

It is frequently wondered by many why such states as Massachusetts, Minnesota, Wisconsin and etc. will elect Democratic governors and then go Republican in national affairs. It is now explained, but it has been plain to us all the while, it is the large corruption fund of the corporations. They don't care to own the states they just take the government which includes all of the states.

The nominees of the Republican convention at Stanton Saturday are known to the majority of our readers. Dr. Knox, the nominee for Judge, is a leading physician of the upper portion of the county; Robert Blackburn, the nominee for County Clerk, is an employee of the Standard Oil Company at a fat salary; M. A. Philips, candidate for County Attorney, is a county seat lawyer.

We have the kindest regards for each of these gentlemen personally, but when it comes to a political fight we are up in arms against them. Still, we are going to do the next best thing for them; we are going to help defeat them by the largest Democratic majority ever recorded in Powell county. So stinging will be their defeat after we get through with them, they will not be likely to again want to make another race in Powell county.

If you live in an incorporated town and wish to vote in the coming November election you must register next Tuesday, October 3rd, and hold your certificate until the day of election when you must exhibit that certificate to the officers of election before you will be allowed a vote.

Under the old method of voting there can be no stuffing the ballot boxes, no tissue or spoiled ballots. Every vote will be counted as cast, a record kept so it can be recounted if necessary. Don't forget to vote for a change in the constitution so the old system can be returned to.

An Ohio editor is said to have started about twenty years ago with 15 cents and is now worth \$100,000. His accumulation of wealth is owing to his frugality, strict attention to business, and the fact that an uncle died and left him \$99,998.

In naming their candidates for county officers the Republicans of this county were very kind to name at least one man who was so well acquainted with Democrats a short time ago.

Some people in the United States drank -40,450,000 barrels of beer last year. We guess their wives suspected it all the time.

Don't forget to register next Tuesday.

Register Tuesday.

### Guard Against Diphtheria.

### Let Powell be Represented.

A chief feature of the State Development Convention in Louisville, October 10, 11 and 12 will be a roll call of Kentucky counties, in which a representative citizen from each county will be expected to respond. In this roll call the chairman will ask for answers on at least two questions: What has your county in a general way in agriculture, forestry, minerals and industrial interests? What does your county need to improve its present condition?

Powell by all means should be represented at this convention, and if it were on any other days save Tuesday, Wednesday and Thursday, the days we must get out our paper, it would be represented, and when the name of Powell county was called, we would arise in answer to the question what does our county need? say, contented citizens, who are willing to labor and take advantage of our cheap land and numerous other inducements, and good roads.

### Got Off Cheap.

He may well think, he is got off cheap, who, after having contracted constipation or indigestion, is still able to perfectly restore his health. Nothing will do this but Dr. King's New Life Pills. **CURES STOMACH TROUBLES**

THE body gets its life from food properly digested. Healthy digestion means pure blood for the body, but stomach troubles arise from carelessness in eating and stomach disorders upset the entire system. Improperly masticated food sours on the stomach, causing distressing pains, belching and nausea. When over-eating is persisted in the stomach becomes weakened and worn out and dyspepsia claims the victim.

Thedford's Black-Draught cures dyspepsia. It frees the stomach and bowels of congested matter and gives the stomach new life. The stomach is quickly invigorated and the natural stimulation results in a good appetite, with the power to thoroughly digest food.

You can build up your stomach with this mild and natural remedy. Try Thedford's Black-Draught today. You can buy a package from your dealer for 50c. If he does not keep it, send the money to The Chettanooga Medicine Co., Chattanooga, Tenn., and a package will be mailed you.

## If You ARE A Democrat Or if You are not You will want to read Bryan's Commoner.

ON MARCH 17 The Commoner announced the Primary Pledge organization plan. This plan provides for Democrats to sign a pledge, blinding themselves to attend all primaries of their party between now and the national campaign of 1908. It is a practical method for the organization of the party by the rank and file, in order that it may prove true to its name and be the efficient servant of the people in the establishment of reform. A little investigation will convince you that the Commoner has hit upon a feasible and effective method of persuading Democrats to participate in the councils of their party.

These pledges are pouring into the Commoner office by the thousands, where they are carefully filed by state, county and voting precinct.

If the same interest manifested in this work during the past four months is maintained during the next two years, the total membership will exceed four million Democratic voters.

The Commoner is issued weekly, subscription \$1 a year. By special arrangements, for a short time only, we offer the Clay City Times and The Commoner one year both for \$1 10.
